

CONTENTS

Preface	ix
1. The Discovery of JNK and Its Biological Functions	1
<i>Ewen Gallagher and Michael Karin</i>	
The Identification of JNK as a Critical Upstream Activator of Jun/AP-1	1
The Regulation of JNK MAPK Cascades	2
Targets for JNKs	4
The Generation of JNK Knockout Mice Has Revealed Its Importance in Mammalian Biology	4
Perspectives	7
2. Regulation of JNK by Small GTPases	13
<i>Maria Julia Marinissen and J. Silvio Gutkind</i>	
The Ras Superfamily of Small GTPases	13
Rac and Cdc42 Take the Center Stage	14
Ras-Rac/Cdc42 Hierarchical Relationships and Guanine Nucleotide Exchange Factors (GEFs)	16
The Pathway Linking Rac and Cdc42 to JNK	17
A Role for Rho in JNK Activation	20
Others Small GTPases	22
3. Physiological Roles of the Different JNKS:	
Lessons from the JNK Knockouts	29
<i>Kanaga Sabapathy</i>	
General Overview of the JNK Knockouts	30
Effects of JNK1 and JNK2 Deficiency in Mice	30
Similar but Nonredundant Roles of JNK1 and JNK2	31
Similar but Nonredundant Roles of JNK2 and JNK3	32
Specific Effects Caused by JNK1 Deficiency	33
Specific Roles of JNK2	33
JNK3-Dependent Physiological Processes	34
Opposite and Antagonistic Functions of JNK1 or JNK2	34
JNK Specific Effects Analyzed with <i>Jnk1^{-/-}Jnk2^{-/-}</i> Cells	35
Outlook	35
4. The Biological Function of JNKKs	
(MKK4/MKK7 Knockout Mice)	41
<i>Hiroshi Nishina and Toshiaki Katada</i>	
Molecular Mechanism of SAPK/JNK Activation by MKK4 and MKK7 in ES Cells	41
SAPK/JNK Activation as a Molecular Switch in All-or-None Manner	44
Role of SAPK/JNK in Mouse Development	44
Role of SAPK/JNK in Cell Survival and Apoptosis	45
Role of SAPK/JNK in Mouse Immune Responses	46
Other Physiological Roles and Target Molecules of SAPK/JNK	47

5.	The JNK Signal Transduction Pathway in <i>Drosophila</i>	49
	<i>Changwan Lu and Steven X. Hou</i>	
	Structure of the DJNK Pathway	50
	The JNK Pathway Regulates Embryonic Dorsal Closure	51
	JNK Pathway Regulates Cell Death	55
	JNK Pathway in Other Processes	55
6.	Regulation of Apoptosis by the JNK Signaling Pathway	63
	<i>Anning Lin</i>	
	JNK and Apoptosis	64
	Models for Studying the Role of JNK in Apoptosis	65
	The Molecular Mechanisms by Which JNK Contributes to Apoptosis	67
	JNK and Cell Survival	68
	The Molecular Mechanism by Which JNK Suppresses Apoptosis	68
	JNK Contributes to Tumorigenesis via Regulation of Apoptosis	69
7.	Oxidative Stress, JNK Activation and Cell Death	73
	<i>Han-Ming Shen and Zheng-gang Liu</i>	
	ROS-Mediated JNK Activation	74
	JNK Activation in Oxidative Stress-Induced Cell Death	75
	ROS and JNK Activation in TNF-Induced Apoptosis and Necrosis	77
8.	JNK as a Therapeutic Target	83
	<i>Brydon L. Bennett and Yoshitaka Satoh</i>	
	Therapeutic Potential	83
	JNK Drug Discovery	84
	Small Molecule Inhibitors	85
	Peptide Inhibitors	91
	Index	95
